STATE LEGISLATIVE UPDATE

Status of County Interest Legislation

County-supported AB 1058 (Pavley), which would require the State Air Resources Board to develop regulations to achieve the maximum feasible and cost-effective reduction in greenhouse gas emissions from noncommercial, personal-use motor vehicles, passed the Senate Appropriations Committee on April 30, 2002 by a vote of 8 to 3. The bill now awaits action on the Senate Floor.

County-opposed AB 2006 (Cedillo), which would amend the Code of Civil Procedure to require binding arbitration of disputes between the County of Los Angeles and physicians, dentists and safety officers employed by the County, passed out of the Assembly Committee on Public Employees, Retirement and Social Security on a 6 to 0 vote on May 1, 2002, and now goes to the Assembly Floor.

County-opposed AB 2123 (Koretz), which would require the Los Angeles County Board of Supervisors to increase membership on the Board of Investments from nine to eleven and mandate how the County's retirement fund excess assets must be used, including using a percent of the excess earnings to fund increased or new retirement benefits, passed out of the Assembly Committee on Public Employees, Retirement and Social Security on May 1, 2002. It now goes to the Assembly Floor. Our Interim Chief Legislative Representative and the Chief Executive Officer of LACERA testified in opposition to the bill. The LACERA representative advised the Committee that some of the bill's

provisions violate Article XVI, Section 17 of the Constitution, which provides that the number of members of a retirement board may not be changed without ratification by a majority of the electors of the jurisdiction in which the participants are employed. The Committee voted 6 to 1 to pass the bill and seek an opinion from Legislative Counsel.

County-support and amend AB 2777 (Nation), which would provide survivor benefits to domestic partners, passed out of the Assembly Committee on Public Employees, Retirement and Social Security May 1, 2002, on a 4 to 2 vote and now goes to the Assembly Floor. Our Sacramento Advocates advised the Committee that the Board of Supervisors recently voted to support AB 2777 and to seek an amendment to include Los Angeles County in the bill's provisions. The author indicated that, when the Governor signed SB 1049 (Speier) in 2001, which extended survivor benefits to domestic partners in San Mateo County, he stated his opposition to expanding these provisions to include other counties. Our request will be honored if it does not jeopardize the counties that are currently included in the bill. AB 2777 now goes to the Assembly Floor.

County-oppose unless amended AB 2908 (Goldberg), was amended on May 1, 2002 to return authority to the County's Employee Relations Commission to rule on local employee organization actions concerning the Meyers-Millias-Brown Act. **Based on these amendments, the County has withdrawn its opposition to AB 2909.** Previously, employee organizations would have been allowed to violate rules adopted by local public agencies, if the organization believed they were in violation of the MMBA, without committing an unfair labor practice. AB 2908 passed out of the Assembly Committee on Public Employees, Retirement and Social Security on a 6 to 0 vote.

County-supported SB 1520 (Ortiz), now titled the "Childhood Obesity Prevention Act," was substantially amended on April 29 to ban the sale of carbonated beverages on all school campuses by 2007. It was reviewed by the **Department of Health Services which continues to recommend County support for SB 1520, and we concur** because the ban on sales in schools would decrease consumption of low-nutrient high-calorie sweetened beverages which are a major contributor to childhood obesity, which in turn is closely linked to Type 2 diabetes. It was re-referred to the Committee on Rules on May 1, 2002.
